

THE COMMUNITY ENGINE NETWORK

LAND CRUISER SA

Prepared for
WeBuyCars
June 2026

Buyers don't start at a marketplace — they start by researching a vehicle they love. **Land Cruiser SA** is the trusted, independent home for one such community, and we've already replicated the model for the Suzuki Jimny. The opportunity: **WeBuyCars sponsors a growing network of these niche engines — one per make or model —** each an independent authority that feeds high-intent buyers and motivated sellers into your ecosystem, on the fringe where AutoTrader can't follow.

WHY IT WORKS FOR WEBUYCARS

REACH THE FRINGE

Trusted niche audiences AutoTrader doesn't own — reached **upstream** of the marketplace, while they're still deciding.

A TWO-SIDED FUNNEL

Buyers routed to **your stock**; motivated private sellers surfaced to **you** — and buying cars is your business.

AN AI-SEARCH MOAT

Cited by **ChatGPT & Google AI** for make and model questions — a flank a generalist marketplace can't defend.

REPEATABLE BY DESIGN

One proven, one replicated. Sponsor an expanding portfolio — **each engine a fresh demand source.**

IMPARTIAL BY DESIGN

Each engine stays editorially independent and shows the whole market honestly — which is exactly what keeps it trusted and cited. WeBuyCars is the **named sponsor and exclusive commercial partner**: your brand across the network, with the buyer and seller funnel pointed at you.

WHAT EACH ENGINE INCLUDES

- **Independent platform** — whole-market listings, live market & price data, valuation tool, community + Instagram
- **"Powered by WeBuyCars"** branding across the engine
- **Self-improving methodology** — instrumented, measured and continuously tuned
- **Content engine** — ongoing AI-citable buyer guides & monthly market reports
- **Exclusive** buyer + seller funnel into WeBuyCars
- **Monthly reporting** — traffic, citations, leads and sellers sourced
