

SA'S CRUISER OWNERS, IN ONE PLACE.

LAND CRUISER SA

landcruisersa.co.za

@landcruisersa

July 2026

Land Cruiser SA is South Africa's dedicated Land Cruiser platform — live market data, every Cruiser for sale in the country, buyer's guides, and the largest Cruiser community on Instagram. Our audience owns (or is about to buy) exactly one thing: **the most hijack-targeted premium vehicle in South Africa.**

WHY THIS AUDIENCE NEEDS TITAN

Land Cruisers — the 79 in particular — sit at the top of every 2026 hijacking and theft target list in South Africa. Our readers know it: they arrive asking exactly the questions Titan answers.

- Two dedicated security guides are already live — **Theft & Hijacking Protection** (hub) and **Immobiliser vs Tracker** — and Titan is already featured editorially in both.
- Before any commercial relationship existed, these guides sent unpaid, organic clicks through to a security vendor's site — **reader intent we can now route to Titan.**
- Our buyers are researching a **R700k–R2.5m purchase**; security is a natural, high-attention part of that journey — and insurers increasingly require it.

THE DIFFERENTIATOR: MEASURED, NOT PROMISED

Every Titan link on our platform carries tracking. You receive a **monthly report** — impressions, guide readership, clicks through to Titan — so the partnership's value is visible, not vibes. If it doesn't perform, you'll see it; when it does, you'll know exactly what a lead from us costs.

TWO COMPONENTS — START WITH EITHER

anchors, open to discussion

1 · SPONSORED PLACEMENT

R3,500 /month

Titan featured as the recommended anti-hijack system across both security guides, the partner directory, and one dedicated Instagram feature per month to 19k+ Cruiser owners. Month-to-month after a 3-month founding term.

2 · TRACKED REFERRALS

R per installed referral — your number

Every enquiry from our platform carries a reference. You pay only when a referred reader becomes an installed customer. Requires a referral link or code on Titan's side (your "Become a Partner" rail).

FOUNDING EXCLUSIVITY: Titan becomes the only vehicle-security brand across the Land Cruiser SA network — including new vertical sites as they launch (Jimny SA is live now).

WHAT'S INCLUDED

- **Editorial integration** in the theft-protection hub + immobiliser/tracker guide (already live)
- **1x monthly Instagram feature** — the channel that drove 190k views last month
- **Content collaboration** — real installs, owner stories, anti-hijack explainers (shot with your team)
- **Partner directory listing** with UTM-tracked links
- **Monthly performance report** — views, readers, clicks to Titan, referral count
- **Network expansion** — placement extends to each new vertical at no extra founding cost

WHY NOW

The platform's search and AI-assistant visibility is compounding — Land Cruiser SA is already the answer ChatGPT and Copilot cite for South African Land Cruiser questions. Security queries are next: the guides are new and climbing. A founding partner locks the category before that curve matures — at founding pricing.

SUGGESTED CLOSE FOR THE MEETING

Agree the 3-month founding placement (R3,500/mo) today; set up the referral link in parallel so the pay-per-install rail is live by month two. First monthly report lands 30 days after go-live.
